

Biomedics® 55 evolution

Designed for comfort and performance at an affordable price.

If you're looking for quality contact lenses that are affordable and are designed with special attention to comfort, check out CooperVision® Biomedics® 55 Evolution contact lenses.

These contact lenses provide clear, crisp vision for nearsighted and farsighted wearers. Biomedics 55 Evolution lenses are designed to minimize interaction between your eyelids and your contact lenses which helps you enjoy a comfortable lens-wearing experience.

Replacement Schedule

 Monthly

Corrects

-  Nearsightedness
-  Farsightedness

The features you'll love

- The Aberration Neutralizing System™ is designed to enhance vision quality by minimizing an optical imperfection* commonly found in eyes.¹
- UV blocker helps protect your eyes against the transmission of ultraviolet rays, helping support your eye health.[†]

* Spherical aberration.

† Warning: UV-absorbing contact lenses are not substitutes for protective UV-absorbing eyewear, such as UV-absorbing goggles or sunglasses, because they do not completely cover. Patients should continue to use UV-absorbing eyewear as directed.
